EXPERIENCE

Front-End Engineer

Smart-Ui 📅 02/2023 - 09/2025

Development of Gaming & Tournament Platforms (React.js, Next.js, TypeScript)

- Contributed to 'Duelmasters,' a gaming platform, by developing complex UI features including interactive tables, modals, and user account systems.
- Implemented and maintained end-to-end tests using Puppeteer, significantly improving UI reliability and reducing regression bugs.
- Worked with GraphQL and REST APIs to ensure seamless data flow and integration.

High-Growth Telegram Mini-App Development (React.js, Telegram API)

- Played a key role in the front-end development of 'Diamore,' a Telegram-based game that accumulated over 3.5 million users.
- Engineered quest progression logic and integrated third-party services (MyChips, OnClicka), enhancing user engagement and monetization.
- Successfully integrated TON Connect SDK for wallet functionality and managed production releases, contributing to a stable user experience during rapid scaling.

Full-Stack Photo Collection Application (React.js, Node.js)

- Developed a full-stack application from scratch for a guided selfie collection process, enabling users to capture photos in specific sequences.
- Implemented both the frontend guide interface and the backend API for photo upload, storage, and secure FTP access for the client.

Full-Stack Website Development from Scratch (React/Next.js, Strapi)

- Single-handedly developed a company website from the ground up, taking ownership of the entire frontend and backend CMS integration.
- Built a custom frontend and extensively customized the Strapi CMS to meet specific project requirements, ensuring a flexible and scalable content management structure.
- Successfully delivered and launched the production-ready website.

Front-End Engineer

JobJun 📅 08/2021 - 02/2022

- Built responsive layouts and UI components using React.js as part of a beginner-friendly development program.
- Gained foundational experience in integrating third-party libraries and working within a collaborative team environment.

EDUCATION

Specialist in Marketing (Bachelor in Economics)

Ukrainian State Chemical Technology University

📅 01/2005 - 01/2010 📍 Dnipro, Ukraine

SUMMARY

Frontend Engineer Frontend Developer with 2+ years of experience building modern web applications using React.js and TypeScript. Hands-on experience in back-end development, having delivered features from UI components to working with backend APIs built with Node.js and CMS integrations. Skilled in modern development practices, including automated testing and code quality tools. Effective team collaborator with experience in iterative development processes. Leverage AI tools to enhance productivity while maintaining high code standards. Experience includes working on a high-load gaming platform and a Telegram Mini App with over 3.5 million users.
